Mr. J. S. He killed it in his field, after shooting it twice with a double barreled shot gun. It weighed 16 pounds and measured four feet two inches from one extremity to the other when its fore and hind legs were stretched out at full length in opposite directions. When Mr. Davis first shot it he only wounded it, when his dog attacked it, but the dog made tracks early in the action yelling for dear life. Mr. Davis shot it the second time killing it dead.
